

I would like to volunteer myself for the student with disabilities officer. I am already the course representative for my school The school of science and built environment officer . I take this role with the full honesty, trust and integrity. I am classed as having a disability and I believe I would be an outstanding asset to this position, I have been classed as disabled since leaving the armed forces I have a whole lot of life experience and would give 100 percent dedication to this role

I believe it is my personal goal to help others in similar positions to what I am suffering and have suffered through life the support required to succeed . I take this area extremely serious and I truly believe given the opportunity I can play a massive role and contribute to whatever it takes to help people living with disability the help support and guidance required. And support everybody in this arena. I want this role to prove I have what it takes to succeed this will also enable me to give back for all the help I have been blessed with receiving since starting university in Salford . I can provide references and am fully supported by my head of school Gregory Watts even I'd my input makes one life better ill have done my job . No one can judge predijudice or Even begin to imagine the chaos mental illness has or the impact it can create without relevant support . It's taken me many years to manage my illnesses. But know I'm finally in a position to give back im so much more focused know as a man than I ever was . Please consider my application seriously as I wear my heart on my sleeve and can take inspiration from this role hoping for a positive response mr Gary Dunn .
