

Hello, my name is Desrae and I will be a graduate for Media and Performance. I can attend either of the sessions which are of choice.

I think I would be able to fulfill this role as I have always cared about the students voices, I think it's important to value students opinions, we have the right to a voice for a reason.

I love being able to listen and give advice, I think it's one of the things I value about myself.

After the BLM (black lives matter movement) being so prominent in 2020, I think it's important as an independent black woman to be have a peer to other ethnic minorities.

thank you so much.
Desrae

thank you very much.
