

Hello, my name is Helena

I am running for the position of Arts and Media office, I want to support students on their Uni journey, making sure they have the best experience educationally and socially.

I enjoy getting to know people, I am on the TV show Gogglebox, so you might feel like you know me already!

I have a number of years experience as Community Wellbeing Officer for two social enterprises. Being an mature student and a mother of one, I have the life experience that will be a positive in supporting the student community.

The plan:

- I have already touched base with my local MP regarding the affect of Covid on Arts and Media Students, The government need to address the fact that students are not getting the experience they signed up for.
- Up social activity's involving all Arts and Media courses, I feel like Salford Uni needs to improve the communication between ALL Creative Courses, we thrive by sharing ideas.
- Source funding by seeking out sponsorship opportunities and creative projects, so we have funds to support students.

Please feel free to get in contact.
