

Student Election Manifesto

Hi, my name is Nicola, and I am running to represent you as the Volunteer Community and Wellbeing Officer. I am in my 1st year studying Social Policy. As your Community and Wellbeing Officer I would like to continue with the work that's already started in campaigning for a reduction of tuition fees for 2020/21. With having to deal with the disruption of face-to-face teaching but paying the full fees, COVID 19 has put an increased pressure on the student community. Although studying throughout a pandemic is unique, I would like to ensure the policies of Salford University are updated/amended, to ensure that the student body are heard. To ensure tuition fees reflect fairly at unprecedented times. In aiding the healing of the student community once this pandemic is over, I would like to work with the University and the local community to improve our green spaces. My hope is that a cleaner and greener community will improve our overall health by bringing the city of Salford closer to nature. I hope to use my experience of working in the Mental Health Sector to ensure a greater sense of good health, wellbeing and happiness for all students.
