

Hi all. My name is Ramy Ahmed and i am currently a student rep and second year Criminology and Sociology student. So i have gained experience with regards to communicating with others and properly communicating feedback to senior members of staff. I wish to help out as much as possible and i think i can do that due to my communication skills and dedication to help out when i can. If you vote for me i will provide a firm voice for students within the school of health and society, as well as appropriately trying to implement any changes students feel are necessary. I hope to be your Health and Society officer.

Thank you.
