#VOTEFAMOUS

My Desire to Stand for this Election comes from a place of Vision, and Care for my fellow Students and School, I have been Involved with the Students union and the business school since my first year of university up until my postgraduate, which has given me a good insight on the Academic/Social Life of both Undergraduates and Postgraduates, and I strongly believe that with this Duality in experience, gives me a good insight on how to relate on both Levels.

Over the past couple of months I have listened to various Students and taken their concerns into consideration. Firstly **ACADEMIC IMPROVEMENTS** needs to focused on, I have already started a Campaign on Inclusive learning to get all our lectures recorded, this will help students have something to fall back on during revision Periods.

The texting system used in the business school for **ATTENDANCE MONITORING** clearly does not work and we need a new system in place.

In regards to **INCLUSIVITY** there has been an under-representation of our Post-graduate Research and taught students, and more work needs to be done to engage more PGT & PGR Students.

Concerns have been raised about how **COURSE REPS** are chosen. I strongly believe that we need to have a system that is **DEMOCRATIC** and not just a first come first serve system organized by the lecturer. Because who ever is chosen will be the voice of all students in that course and that should not be taken for granted.

SAFETY is a major priority of mine; we need to organize more campaigns relating to **SEXUAL HARASSMENT** (any unwanted sexual conduct). Sexual Harassment is a form of **SEXUAL VIOLENCE** and students need to be aware of this, and victims of Sexual harassment need to know the various Platforms available within the university and the union where they can report this confidentially.

INTERNATIONAL STUDENTS make up a large percentage of our student population, but not much Support is available to us when it comes to Securing placements and Graduate jobs, hence why I believe that we as a student body should Lobby the university to provide Specific Support for international Students in this area. I also intend to work with the **NATIONAL UNION OF STUDENTS** to Lobby the Government through a Petition and Campaign on the **REINSTATEMENT OF THE POST STUDY VISA**.
