

Hi, I am Jamil I am First Trimester Student Studying MSc Data Science. I am an international student. I made the decision to run for the position of SEE International Students' Officer after realising how confident I was in my ability to help our university gain more and more recognition.

I intended to have a strong non-academic basis during my time in high school and college. As a result, I have participated in many sports and musical activities and attended a multitude of scientific fairs held in my institution. I am very proud of winning too many contests during my studies. I participated actively in my campus club. Helping others in need brings me great joy. I love leading people and doing the job effectively. All these activities helped me to gain leadership and managerial skills, and most importantly, communication abilities.

As SEE International Students' Officer, I promise to do the following:

- **Combating discrimination:** guarantee the wellbeing and sense of community of UoS students. Make certain that the mental health services are more culturally aware. bolster the hotline for reporting hate crimes.
- **Housing and finance:** reduce the rent and help students with financial management and housing advice along with the university.
- **Work Placements:** putting extra effort to help SEE students in order to find work placements along with their studies through lobbying the university to make partnerships with more well reputed companies who are specialised in that field.
- **Increased awareness of mental health and support:** increased zero tolerance for sexual harassment on university campuses and in the Union.
- **Student community:** assist estranged students and those with English as a second language.

1. What's one thing students need to know about you?
The most important thing you should know about me is that I am passionate about helping people.
2. What do you think is the biggest challenge students face?
Well, I think the biggest challenge students might face is obtaining a job after graduation.
3. What's your biggest priority when you get into office?
The biggest priority when I get into office is reading my emails, then check my daily tasks schedule and conduct a brief meeting to assign duties to my team.
4. What does the student union mean to you?
It means a lot to me because I can help students for all kinds of support by representing them as an elected rep by students. Throughout the student union, we can organize social events, sports, and societies for a wide range of different hobbies and interests.
