

# **Hi, I am Natasha, I am a first year MA student studying mental health nursing. I want to be your BME officer for 2024-2025.**

I have previously been an active member of student union in my previous university as psychology officer. I have also been a president for PENSA society. These roles have taught me many skills such as; teamwork and critical thinking.

This would make stand out as your BME officer as I have gained these skills. Your trust is my mission!

During my time as BME officer I pledge to:

- Help with financial aid, I will actively seek out support and financial talks with students and staff. This includes advocating for scholarships and advice for the cost of living.
- Fight for Equality and justice, I promise to stand up for those who are harmed by injustice or discrimination and to provide them with the tools, resources, and assistance they need to hold people accountable and seek justice.
